## FROM IOCV CHAIRMAN

### Message from Changyong Zhou, Chairman

We hope to see you all at the 21st IOCV & 6th IRCHLB Joint Conference to be held in Riverside, California, USA, in March, 2019. Our Chair-elect Georgios Vidalakis and his colleagues are well prepared for the conference and the grand celebration of the 60th anniversary of IOCV.

We have also publicized the big event through the ISC community to attract as many participants as possible to the conference. Please send the link of the website at the top of the Newsletter to anyone who might be interested in the conference. Over 340 abstracts submitted and 212 early registered participants so far.

Points to remember:

- 1) The selection of the Chair-elect for the next three years.

I'd like to apologize for the delay of this procedure due to not having reminded Mengji Cao of this much earlier. Now it is under processing via ElectionBuddy System.

- 2) The nomination of IOCV Fellows.

Please send your nomination of hopeful candidates of IOCV members to me according to the following instructions of the Bylaws:

The Organization at its regular conferences or during official pre- or post-conference tours may grant the honor of Fellow of the IOCV for lifetime achievement to persons who have contributed significantly to the growth, welfare, functions or activities of IOCV including service to the organization, sustained scientific contributions and otherwise furthering the objectives of IOCV. The Board of Directors and previous awardees shall constitute a committee to consider the granting of Fellowships. Members of IOCV may submit to the Chairperson names and supporting documents or information on the persons to be considered for this honor. Nomination of fellows of the IOCV shall be approved at a regularly convened business session of the Organization by a majority of the delegates. Fellows shall be exempt from payment of regular dues but if in attendance at conferences shall pay the established registration fees. Fellows may serve on committees where because of their interest and qualifications they can contribute to aims and activities of IOCV.

Note: Current Fellows are: SM Garnsey, CN Roistacher, J Bove, L Navarro, V Rossetti, LW Timmer, WO Dawson, M Bar-Joseph, P Moreno, N Duran-Vila, XY Zhao.

- 3) Bid for the next IOCV Conference.

If you are interested in hosting the next IOCV conference, please prepare a presentation in advance for presentation at the conference.

- 4) Business meeting agenda.

You are welcome to forward discussion topics for the Business Meeting to Mengji Cao so that they will be included in the agenda and discussed by IOCV.

I am looking forward to seeing you at the joint conference, and wish you a Merry Christmas and

Happy New Year!

This short newsletter deals only with:

- (i) The 21<sup>st</sup> IOCV & 6<sup>th</sup> IRCHLB Joint Conference,
- (ii) The financial support for young citrus phytopathologists to attend the 21st IOCV & 6th IRCHLB Joint Conference,
- (iii) Attachments for the reference of nominations.

## **The Joint Conference of 21<sup>st</sup> International Organization of Citrus Virologists & 6<sup>th</sup> International Research Conference on Huanglongbing**

### **CONFERENCE OVERVIEW**

The Joint IOCV & IRCHLB Organizing Committee is pleased to announce the Joint International Conference of Citrus Virologists XXI and the International Conference on Huanglongbing VI will be held March 10-15, 2019 at the Riverside Convention Center in Riverside, California.

The joint conference is being produced by the California Citrus Research Board (CRB) and the University of California, Riverside with the support of California's citrus industry and government partners, under the advice and guidance of a joint conference organizing committee. The California citrus industry is excited to welcome U.S. and international researchers, regulators and citrus industry members from around the world to the Golden State.

## SCHOLARSHIP INFORMATION

### Financial Assistance/Scholarships

**DEADLINE TO APPLY IS: FRIDAY, JANUARY 11, 2019 | 11:59 PM PACIFIC TIME**

Support for young scientists will be available. The funds will be raised primarily by the local organizers and IOCV and IRCHLB contributions.

A limited amount of funding is available for conference participants with fiscal hardship that could not otherwise attend the conference. Travel assistance funding is not intended to completely offset costs of travel. Rather the funding assistance is intended to augment and/or leverage the limited resources provided by the conference participant and/or their respective institution. A

Travel Assistance Committee will evaluate applications on a ‘greatest need’ basis. If selected, the award will be in the amount of \$500-\$1000 USD. Please understand that funding is limited, and therefore not all applicants will receive awards. Intention of these awards is to attract the greatest number of research participants.

Financial assistance is intended for young scientists who are PhD students or received their degree within the last five (5) years.

Scholarships will be offered to cover all or part of the cost of:

1. Airfare
2. Accommodations
3. Conference registration

Support will not include a daily allowance, and will not be given as cash.

To be eligible for financial assistance/scholarships, candidates are required to give either an oral or a poster presentation at the IOCV XXI Conference or the IRCHLB VI and publish a full paper or short communication in the Journal of Citrus Pathology.

An IOCV and IRCHLB appointed committee will evaluate applications and inform the successful applicants.

Members are encouraged to identify young, talented and motivated scientists to apply.

Information on how to apply for these scholarships will be released soon.

To apply for assistance, send an e-mail to Dr. Georgios Vidalakis at [vidalg@ucr.edu](mailto:vidalg@ucr.edu).

In the body of the e-mail please include the following information:

- Name
- Institution
- Contact Information
- A one paragraph explanation of the financial hardship and need for travel assistance.

*The paragraph should not exceed 250 words*

**DEADLINE TO APPLY IS: FRIDAY, JANUARY 11, 2019 | 11:59 PM PACIFIC TIME**

## TRAVEL

### **Airports**

Riverside is located just 20 miles from Ontario International Airport (ONT), home to seven major airlines, serving fourteen destinations with non-stop service, and offering 400 weekly departures. ONT makes travel easy, offering large airport amenities with small airport convenience, including easy exit and entrance, quick ticketing and gate access.

With its central location, Riverside is also served by Los Angeles International Airport – LAX (70 miles), John Wayne Airport, Orange County – SNA (40 miles), Long Beach Airport – LGB (60 miles) and Palm Spring International Airport – PSP (50 miles).

### **Shuttle Service**

The hotels do not provide shuttle service. More details regarding shuttle service will be announced soon.

## ABSTRACT SUBMISSION

Online at: <https://www.cvent.com/c/abstracts/36828def-d89b-4487-b156-bdfeda5ddedc/submissions>

### 1. SUBMISSION DEADLINE:

December 2, 2018 | 11:59 PM PT – Closed

### 2. Abstract Preparation Instructions

Researchers are invited to submit abstracts of 300 words or less for the meeting (multiple abstracts allowed). Each abstract should be prepared for standard 8.5" X 11" inch US format paper, 12 pt 'Times New Roman' font, single-spaced, as a Microsoft Word document.

Abstracts will be reviewed by a scientific panel of experts for each specialization area. The panel will determine whether research described in the abstracts meets scientific standards. While the goal is not to exclude submissions, those deemed not scientifically sound may be rejected. While the goal is not to exclude submissions, those deemed not sound scientifically based on lack of replication may be rejected. A 2-3 sentence non-technical summary is a requirement of the abstract submission process. This statement should be at the end of the abstract as in the example below. This statement is meant to translate the scientific findings to a general audience in a few sentences. Also, the goal of this non-technical summary is to succinctly state how the research findings may beneficially impact citrus production, no matter how far off into the future. Abstracts lacking a non-technical summary may be subject to rejection by the scientific panel.

Important Note: Due to the finite duration of the conference, not all submissions can be considered for oral presentations. The Abstract Review Committee will review the abstracts and select the abstracts that will be requested as oral presentations.

### 3. Oral Presentation Instructions

Oral presentations are allotted a 15 minute time slot: please allow sufficient time for questions. Suggested timing is 10 minutes for the presentation followed by 5 minutes for questions. Session moderators will be asked to strictly enforce this time limit.

Presentation format must be Microsoft PowerPoint. The 2-3 sentence non-technical summary is a required component as the last slide of the presentation. All oral presentations, with the exception of keynote lectures, must be turned into the registration desk on:

Saturday, March 9 for IOCV and Tuesday, March 12 for IRCHLB.

Presentations will be accepted on memory stick or CD.

To respect research in progress, presentations will not be made publically available and will be erased from the computer at the conclusion of the conference.

#### 4. Poster Presentation Instructions

Posters must not exceed 36 inches wide by 48 inches high (91 cm X 122 cm). The official language for the posters is English. Posters should be readable from a distance of 6 feet (2 m). Please keep this in mind when preparing diagrams, charts, tables and photographs. Poster text should include a title, author(s) and affiliation(s), abstract or summary, introduction, methods, results and conclusions. The 2-3 sentence non-technical summary is a required component on the poster. Handouts can be prepared for distribution at the poster session.

#### 5. Abstracts should comply with the following outline:

Abstract Title (in bold type)

Blank Line

Author(s) and affiliation(s) [Presenting author's name should be indicated in bold type]

Blank Line

Body of Text

Blank Line

Non-Technical Summary

**NOTICE:** *The Abstract Review Committee will review and select the abstracts that will be requested as oral presentations. The balance of the abstracts will be assigned to associated poster sessions. The abstract review committee reserves the right to assign categories to abstracts, regardless of the category they are originally submitted to. The committee will invite accepted abstracts to deliver an oral or poster presentation, regardless of the submitter's request for an oral or poster presentation format.*
